A-Z: A Handy Summary of Practical Information

Understanding the Language

# This land of untamed natural beauty offers a plethora of unique opportunities for the intrepid traveller

Few, if any, other countries on the planet offer the mind-boggling array of holiday options that Indonesia has within its borders. The bonus is that a multitude of them are virtually untapped, giving those who yearn for personal contact with exotic cultures, nature or history such an abundance of choice that time is the only constraint.

The world knows of Bali, Indonesia's primary tourist destination, and to a lesser degree the court cultures and historic monuments of Central Java and the beaches of Lombok. In recent years, travellers have begun exploring further afield. Divers are flocking to remote Papua's Raja Ampat, surfers are lured by the daring breaks along the country's southern coastlines, and hardy climbers explore the many volcanoes. But there is still so much more. Granted, getting to many of these places takes an adventurous spirit, as infrastructure is weak off the beaten path, but for those wishing for unique and authentic experiences, with careful planning they are here for the taking.

For culture aficionados, art, theatre, dance, music, rituals and handicrafts abound. In the remote forests of Kalimantan live the former headhunting Dayaks, and amid the hills and valleys of Central Sulawesi the Torajans still hold elaborate funeral ceremonies. On the small islands east of Lombok exist various ethnic groups whose isolated locations, far from the country's commercial centres, have left their lifestyles and traditions almost untouched. Indonesia's easternmost outpost, Papua, is home to extraordinary "lost world" cultures of great interest to anthropologists.

There are remains of megalithic cultures on Nias Island (Sumatra), Sumbawa, Sumba, Solor (Nusa Tenggara) and Sulawesi. Houses built in distinctive architectural styles range from the curved roofs of the Minangkabau and Batak (Sumatra) regions to Dayak longhouses (Kalimantan), the highly symbolic thatched-roof houses of western Sumba and the treetop homes of the Korawai in Papua.

Wildlife-lovers may already know about the Komodo dragons, the rare Javan rhino, Sumatran elephants and tigers, as well as both Sumatran and Borneo orang-utans. But many aren't aware that most of these creatures are found within Indonesia's national parks, which are untapped treasure troves of rare species of mammals, birds and plants. In addition to diving, surfing, trekking and climbing, opportunities for other outdoor sports are prolific. And for those who prefer viewing nature in a more relaxed way, scenic drives and sailing cruises afford spectacular scenery.
